Hi Pankaj,

Thanks for dropping by earlier.

Can you please tell me your mail code? Confirmed that your cubicle # is 8215.

Thanks!

Claire

Good morning Pankaj,

The Superfund Records Center will at 95 Hawthorne, 4th floor, Suite 403S until Tuesday PM.

The Bluewater Uranium Mine site documents are at the location above.

Thanks!

Claire

Hi Claire:

Good morning. I will swing by the record center in the 30 min or so. Where is the new location of the record center.

Best

Pankaj

Pankaj,

Do you mind if the Bluewater Uranium Mine sites are delivered to your cubicle at 75 Hawthorne? They could be delivered today.

Please let me know!

Thanks

Claire

Good morning Pankaj,

Please note that the Bluewater Uranium Mine site documents are in the Reading Room of the Superfund Records Center.

Today is the last day SRC staff will be located at 95 Hawthorne, 4th floor.

Thanks

Claire

Hello Pankaj,

As a reminder, the Bluewater Uranium Mine site documents are available for review at the Superfund Records Center.

Best,

Claire

Good morning Claire.

Thank you so much for following up on this. I will be in the office on Wednesday. I will stop by the 4th floor to look at the documents.

Best

Pankaj

Morning Pankaj,

The documents you requested have arrived from the FRC. They are available in the Reading Room of the Superfund Records Center at 95 Hawthorne, 4th Floor, Suite 403S.

Please note that after this Friday, June 5, the Superfund Records Center will have moved to 75 Hawthorne, 3rd floor.

Best,

Claire

Hello Pankaj,

I will have the boxes requested from the FRC. They should arrive by early next week.

Best,

Claire

Hi Claire:

Good morning. Will it be possible to request the box from the FRC? We would like to know if a hardcopy of the document (the IAG) exists.

Please let me know the approximate date by which we will have the box here.

Best,

Pankaj

Subject: RE: Access Request Form for Toeroek staff - update needed

Hello Pankaj,

Sorry for the misunderstanding.

I have not been able to locate an indexed version of Attachment 7 (title: Interagency Agreement Executed by EPA and the DOE in Oct/Nov 1992: Mine Reclamation Services at the DOE Bluewater Uranium Mining Site), but there is a possibility that the hardcopy may have been retired to the Federal Records Center along with other site documents containing interagency correspondence, maps and mining leases for years 1981-1992. This box of site documents was indexed to Bluewater Uranium Mine and as this site is not listed in the Access Request form for Toeroek, I needed to make sure that Toeroek staff are authorized to view it (in the event that the box is routed to or picked up by Toeroek staff). Note: the box is currently coded as unclassified; if non-EPA staff are not listed as authorized individuals in the Access Request form, they can only view released documents).

Panjak, would you like me to recall this box of documents? Given that Monday is a Federal holiday, the box would not arrive at the SRC until mid-next week.

Best,

Claire

Hi All:

Good morning. I am working offsite.

Hi Claire:

It will be wonderful if you could send me a pdf version of the requested file.

Best

Pankaj

Hi Claire,

For clarification, Pankaj is an investigator with EPA on the NAUM site, and we were making this request on his behalf. I believe he is just going to head down to the SRC to request a copy of the file I had requested himself.

Thanks,

Michael

Subject: Access Request Form for Toeroek staff - update needed

Hello Peter,

Michael, Zoe and Panjak have requested assistance from the Superfund Records Center regarding site documents related to the Abandoned Uranium Mines on the Navajo Nation (AUMNN) site (formerly Navajo Nation Uranium Mines #1 & #2) and the Bluewater Uranium Mine site (cross-referenced with AUMNN).

The Access Request form we have on file has not been updated since 2011 and does not list Zoe or Panjak as authorized users of these sites files.

Also note that the Bluewater Uranium Mine site is not listed as one of the sites Toeroek staff have access to. There are a few Bluewater sites that we have on file: BLUEWATER URANIUM MINE (DOE) (NND986683290) , BLUEWATER URANIUM MINE (NND983469891) , BLUEWATER URANIUM MINE (SANTA FE) (NND986683316).

Please reach out to the EPA Site Project Manager, Nicole Moutoux (copied), to request an update of the Access Request form.

Best,

Claire
